SUMMARY

Full-Stack/Frontend Developer with 3 years of experience specializing in web and mobile app development using React, Django, and Tailwind CSS. Skilled in building modern web applications, collaborating effectively with teams to plan, build, test, and launch reliable software. Continuously eager to learn and adapt to new technologies and trends, with a strong focus on code quality and delivering exceptional user experiences. Analytical and detail-oriented, I thrive under pressure and am committed to providing high-quality, innovative solutions.

PERSONAL DETAILS

Date of Birth : November 11, 1983

Age : 40 Years old

Weight : 95 Kg.

Height : 192 Cm.

Nationality : Thai

- GCP, MySQL, Firebase, Git, Postman, Google Analytics, NPM, Yarn, Homebrew, Ngrok, Docker, Robot Framework, Jest

Design

- Adobe XD, Photoshop, Figma

PROJECT

Dating App Back Office Website Lottery Service Application

7Solutions Co., Ltd.

- Collaborated with the team to plan and implement a modern stack and libraries for React and Next.js, including zod, shadcn, tailwindcss, react-query, and react-hook-form.
- Participated in planning and structuring components and managing overall application architecture.
- Engaged in Agile workflows, including grooming, planning, and retrospectives.
- Collected requirements from the UX/UI team and designed features to meet their needs.
- Refined code to meet company standards and best practices.
- Conducted code reviews and provided input to improve the overall codebase quality.

Bluebird / Stocklend Application

NestFly Co., Ltd.

- Managed application maintenance on the App Store and Google Play, including setting up testing environments and handling tester licenses.
- Regularly released new features to keep the app up-to-date.
- Engaged in continuous development, resolved issues, and refactored code to improve functionality, usability, and user experience.

Darkphoenix / Blackbird NestIFly CRM

NestFly Co., Ltd.

- Designed the project architecture for Darkphoenix and developed
- the UX/UI from the ground up to a production-ready state, leveraging the DataTables library.
- Revised database schema, refactored code, created and updated
- APIs, and deployed the system on Google Cloud Platform to enhance efficiency and workflow.

Taxi Service App

Fusion Solution Co., Ltd

- Developed front-end components for navigation and driver rating features.
- Created a reusable front-end widget, compatible across various application features, based on Adobe XD designs.
- Integrated CRUD operations for managing driver and vehicle information in the Admin Dashboard.

Health Insurance WebApp

Fusion Solution Co., Ltd

- Debugged and maintained the application regularly.
- Fixed UI inconsistencies and improved responsiveness.
- Added new features like user authentication, customer analytics reports, and a coupon system.
- Provided customer support, addressing application issues and feature-related questions.

Short URL Service Website

Fusion Solution Co., Ltd

- Collaborated effectively with UX/UI designers to develop and execute both front-end and back-end features of the Admin Panel, catering to enterprise and corporate client requirements.

WORK EXPERIENCE

Sr.Frontend Developer

7Solutions Co., Ltd. - [Software House], June 2024 - Nov 2024

- Develop and maintain the user interface (UI) of web applications within the Software House using the latest technologies and frameworks to deliver highly efficient solutions that meet client needs for each project.
- Estimated, designed, developed, and delivered features for the front-end team.
- Fixed issues and maintained front-end interfaces effectively.
- Made significant contributions to the front-end team.
- Reviewed pull requests, provided comments, and helped the team improve.
- Worked collaboratively with the squad to meet goals and expectations.
- Led and participated in designing and developing complex front-end applications.
- Collaborated with UX/UI designers and back-end developers to create responsive and appealing user interfaces.
- Mentored junior developers and encouraged a collaborative and knowledge-sharing environment.
- Stayed current with front-end development trends and ensured the team adhered to industry standards.
- Conducted code reviews to maintain code quality and enforce coding guidelines.
- Worked with product managers to understand project requirements and deliver high-quality solutions promptly.
- Troubleshoot and debugged issues to ensure optimal performance and user experience.

Project - Dating App Back Office Website : ReactJS NextJS Tailwind

Project - Lottery Service Web Application : ReactJS NextJS Tailwind

Asst Manager / Full-Stack Developer

NestFly Co., Ltd. - [Fintech Startup], September 2022 - June 2024

- Developed software, planned steps, and worked on both Front-End and Full Stack development.
- Coordinated with the product, UX/UI, and other departments to collect necessary information for software development.
- Tested software to identify and fix bugs and issues.
- Improved code quality, optimized code structure, and modified database architecture for maximum efficiency.
- Conducted QA and deployed software systems as assigned.
- Researched and recommended new processes and technologies to enhance work efficiency.
- Shared knowledge with the team as directed.
- Completed tasks according to specifications and assignments from supervisors.

Project - Darkphoenix (NestFly CRM) : Python Django Javascript jQuery Tailwinds Datatables MySql GCP
